## COVID-19 RESPONSE

Poole Fire Protection stands ready to provide a fast response to fire protection engineering and life safety needs during this crisis

## Our Experienced Team is Ready to Help

The world is struggling to contend with the COVID-19 crisis, and we aim to be a part of the solution by helping create fire-safe Alternate Care Facilities. We know this is an urgent situation, and our team stands ready to immediately work with you to ensure that these retrofitted facilities meet fire codes and safety standards.

### Services for Alternate Care Facilities:

- Guidance and Support to Local Fire Marshals
- Fire Protection and Life Safety Assessments and Review of Temporary or Alternative Care Medical Facilities
- Development of Interim Fire Protection and Life Safety Features
- Building, Life Safety and Fire Code Consulting, and Development of Code Compliance Plans
- Code Compliance Surveys and Support in Waiver Preparation
- Operational Assistance dealing with EOC Surveys, Storage and Handling of Hand Sanitizers, Fire Drills, Temporary Cooking, Portable Gas Storage and System Inspection, Testing and Maintenance.
- Performance-Based Design, Engineered Alternatives and Computer-Based Fire and Egress Modeling
- Fire Suppression and Fire Alarm/Mass Notification System Design
- Construction Oversight and System Commissioning and Testing

### The Poole Difference:

- A Recognized Leader in Fire Protection Engineering with Decades of Experience on USACE, FEMA and Medical Projects
- Self-Performing with In-House Fire Protection Design Capabilities, including BIM
- Innovative Fire and Life Safety Solutions Required for Unique Facilities – including Alternate Care Facilities
- State-of-the-Art Fire Suppression, Detection, Alarm and Mass Notification Systems
- Dynamic Code Footprint Plans
- Cost-Effective Engineered Alternatives and Performance Based Designs
